COOKIES AND ADVERTISEMENTS

Most websites you visit use cookies in order to improve your user experience by enabling that website to 'remember' you, either just for the duration of your visit (using a 'session cookie') or for repeat visits (using a 'persistent cookie').

Cookies do lots of different things, like letting you navigate between pages efficiently, storing your preferences, and generally improving your experience of a website. Cookies make the interaction between you and the website faster and easier. If a website doesn't use cookies, it will think you are a new visitor every time you move to a new page on the site.

Some websites will also use cookies to enable them to target their advertising or marketing messages.

Cookies may be set by the website you are visiting ('first party cookies') or they may be set by other websites who run content on the page you are viewing ('third party cookies').

Although acceptance of cookies is not required to visit our websites, we do use cookies. Cookies are small text files stored on computer hard drives and are regularly used to analyze individual website activity. A cookie file may contain information that the website uses to respond to you as an individual and to tailor a website experience to your preferences. If you have provided your contact information as part of your website visit, we may utilize the cookie file to collect information about your specific website activity. This information will only be used for marketing purposes by Dr. David Stoker and will not be sold or shared with any third party not contracted with Dr. David Stoker.

Use of cookies enables our sites to determine the usefulness of information provided to our users and to analyze the effectiveness of our navigational structure in providing you that information. In the end, cookies help us provide you with a better website experience.

If you prefer not to receive cookies on this website, you can set your browser (such as Internet Explorer, Chrome, Mozilla Firefox, etc.) to warn you before accepting cookies and to refuse the cookie when your browser alerts you to its presence. You can also refuse all cookies by turning them off in your browser. If you have set your browser to not allow cookies, you will still be able to access the website; however, this may affect your full usability of this website.

ONLINE BEHAVIORAL ADVERTISING

Our websites may occasionally have advertising. A certain amount of this advertising is tailored to the individual user. We use cookies to determine what advertising might be most relevant to you based on the areas you look at on our sites and your IP address geo-location.

ADVERTISEMENTS

Our ad network partner uses cookies and web beacons to collect non-personally identifiable information about your activities on this and other websites to provide you targeted advertising based upon your interests.

We partner with a third party to provide and manage our opt-out mechanism. Please note this does not stop advertising from being served to you online. You will continue to receive generic ads, just not targeted ads.
